## Car wash mat tarpaulin-Factory wholesale

GSTARP

Car wash mat, also known as PVC car wash containment mat, is composed of high-strength base cloth and PVC. The substrate provides high tear strength and tensile strength. The PVC layer is waterproof and wear-resistant, and can contain the sewage during vehicle cleaning to avoid environmental pollution.

When used flat on the ground, it can be applied after inflation, suitable for outdoor, car wash, garage, and commercial parking area. Reusable, easy to clean, and has good economic value.

Professional sales team, over 15 years experience in producing PVC Greenhouse Fabric, Over 10 years OEM&ODM finished product experience, we are a factory produces pvc tarpaulin in Haining, The greatest feature of our Tarp for PVC Greenhouse Fabric is stable and durable quality.

▶ **Anti-static:**

fabri is completely anti-static, this is very important for safety, all purchasing German production equipment, anti-static level is 10E7.

▶ **Long lifetime:**

Produced by coating or coating process, the product structure is stable, quality is stable, with strong durability, to ensure economic returns, the product has a very good service life, over 10years.

▶ **Recyclable:**

PVC Tarpaulin all substances are degradable, including the production of auxiliary materials, and it is no harmful substances, fully recyclable.

▶ **Weldable:**

Laminated coated fabrics and coating coated fabrics are two layers of PVC film laminated on top of the base cloth in the center, both top and bottom surfaces are PVC layer, so it is very easy to weld, we usually use hot air welding and high frequency welding machine to weld firmly with very good results.
