

GSTARP-PVC

GSTARP is a professional manufacturing factory and exporter. Our products pvc tarpauline rolls, mesh fabrics, transparent fabrics, printed advertising fabrics, coated fabrics, laminated fabrics, and special welding fabrics to meet the needs of customers in various industries such as sunshade, covering, automotive, industrial, construction, and aquaculture. We not only provide PVC rolls, but also offer OEM and ODM services for finished products to global customers, with products exported to over 90 countries. All of our production equipment, including testing equipment, is imported from Germany, and our main research and development and production teams are all from Germany. We have 6 German laminated lines, 3 PVC knife coated lines, and 2 mesh production lines, which enable us to meet all customer needs. Our product width reaches an astonishing 5.1 meters, which is the widest in the entire industry and the most professional. Quality is our core competitiveness, and fast delivery enables us to win customers. Our professional customer customized product solutions provide customers with comprehensive pre-sales and after-sales services. Our company's products undergo specialized performance checks before shipment, including tear resistance, tensile strength, flame resistance, thickness, width, color, antibacterial, anti mold, adhesion, water permeability, acid resistance, alkali resistance, cold resistance, folding resistance, etc. We look forward to establishing long-term customer satisfaction, achieving mutual benefit and win-win situation, and developing together with our customers through the best quality products, high-quality services, advanced production lines, professional technical teams, logistics transportation, and professional sales support. Our factory is located in Haining, a very beautiful place with convenient transportation. It is very close to Shanghai, Hangzhou, Shanghai Port, and Ningbo Port. Welcome to visit the factory and create a better future together!

PVC truck tarps: pvc covers material

Truck cover tarpaulin is a kind of truck coating fabric. It is produced in GSTARP factories by hot-laminating, coating, knife-scraping process. As truck driving is a very arduous and tough job that requires avoidance of external elements, hence the importance of strong and durable truck tarpaulin, which provides protection for the cargo and also serves as a promotional tool. We offer excellent and consistent service to our customers with our truck coating fabric. Truck tarpaulin is extremely strong and can withstand all kinds of wind and rain, hail and harsh weather, in the middle of the material is high-density polyester fabric, the top and bottom are covered with two layers of high-density PVC. It can effectively resist ultraviolet rays for a long time, with high strength and long life cycle, featuring very durable material, and tear/abrasion-resistant, tensile, very flexible, good safety, customers can customize the width, length, various colours, and can be available for printing according to the demand. Main products: PVC side curtain fabric, PVC cover tarpaulin for truck, PVC container transport vehicles fabric, PVC truck compartment, waterproof fabric, PVC dump truck cover fabric, heavy duty tarpaulin, flat truck fabric.

PVC tent fabric

PVC tent tarpaulin as known pvc tent fabri or pvc tent vinyle or tent material, is a type of pvc coated tarpauin,We recommend laminated or coated tent fabric to our customers according to the application scenario, this material is widely used and loved by people all over the world, we are a professional manufacturer of high quality tent fabrics in a variety of thicknesses and colors, the most important feature of this fabric is that it is very durable and 100%waterproof, it is suitable for all kinds of tents and other outdoor applications. The weight is from 450–1200, the top of the tent is thickened and opaque, the side curtains are relatively thinner, there are transparent windows, also mesh windows can be used for ventilation, our tents are made of German equipment using the process of coating or laminating, with UV-resistant, 100% waterproof, scratch-resistant, flame-retardant, very safe and durable. It can endure hail, strong sunlight, high temperature, humidity and other climates. It can be used for more than 10 years.

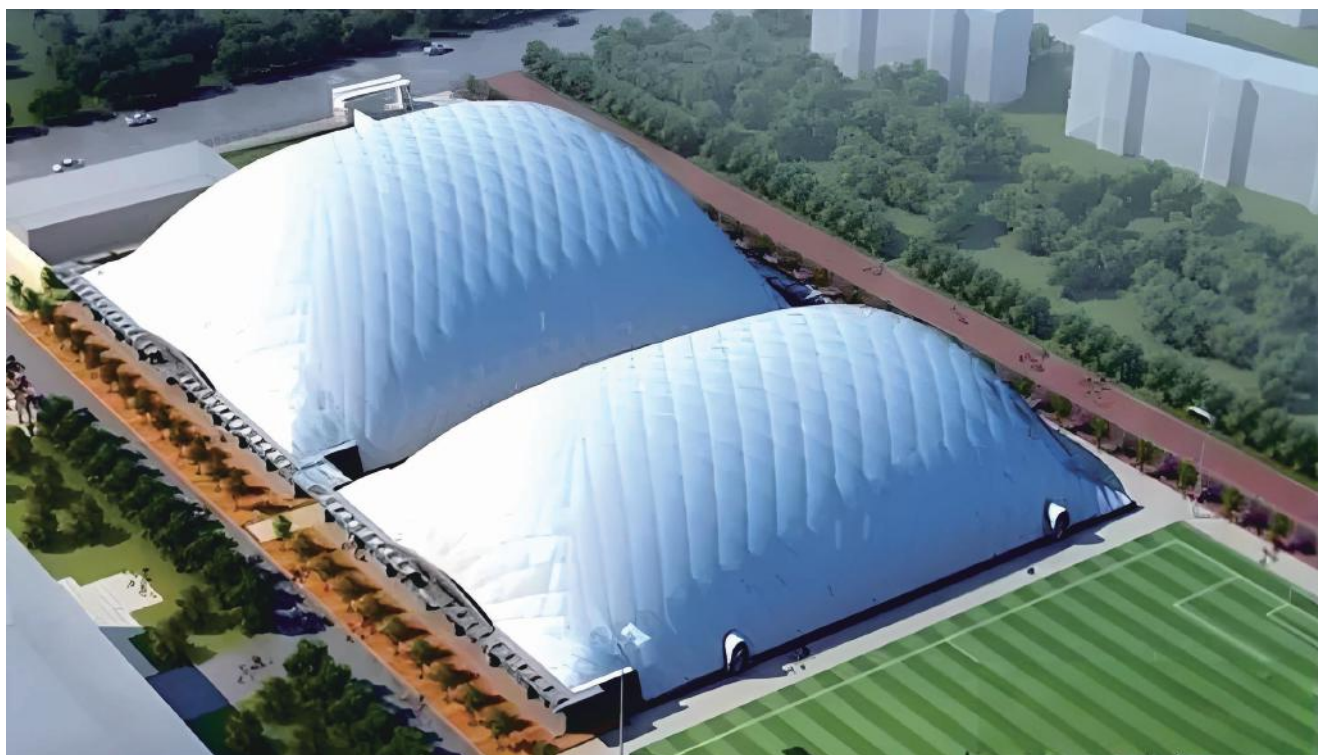

GSTARP

PVC tarpaulin for inflatable

PVC Tarpaulin for Inflatable is pvc heavy duty fabric, wight form 600gsm to 1500gsm,Mainly used for Inflatable boat, bouncy castles, inflatable exhibition booth, inflatable advertising, inflatable swimming pool, inflatable slides, giant inflatable tarpaulin.PVC Tarpaulin for Inflatable has excellt air tighness,high strenth,long service,aging resistance,weather resistance and other characteristics.

GSTARP

PVC Industry tarpaulin: oil fence, flexible vinyl duct, high speed door fabric

PVC Industry tarpaulin has high tear resistance, stretch resistance, abrasion and water resistance, UV resistance, durability because it is produced by imported high purity PVC together with high strength base cloth, weights from 350gsm to 1200gsm. It can keep the physical properties stable for a long time under extreme weather. The tarpaulin is resistant to high and low temperatures, suitable for environments ranging from -40°C to $+70^{\circ}\text{C}$, will not deteriorate in long term use, and has excellent economy.

It has the characteristic of lightweight and easy to fold and transport, easy to install and simple operation, suitable for industrial production, supermarkets, construction sites, transportation, warehouse cover, pipeline, and other scenes. The material is anti-mold, anti-corrosion, and can be used for a long time, is the ideal material for protection and storage, and indispensable in the industrial field.

Water tank fabric

PVC water tank fabric also called PVC water bag, vinyl water fabric, It' s a heavy duty tarpaulin, the best feature is high strength, 100% waterproof and durable. It can be made into flexible water tanks and cube water tanks, also can be used with containers and trailers. It has very good environmental adaptability, resist harsh environment, especially chemical corrosion with very good UV resistance performance. It can be used in emergency water supply, desert, construction site, military and other fields. Meanwhile, it can be filled with water, oil, all kinds of chemicals, biogas and other gases, and also drinking water.

GSTARP

Awning tarps

Awning tarps are also called PVC Awning Fabric or PVC tarpaulin canvas, PVC tarpaulin canopy, sunshade Fabric, made by High strength polyester fabric coated with PVC on both sides.

It' s mainly used for porch and window sunshade, and outdoor sunshade, as well as the production of movable awnings, sliding sheds, also widely used in commercial activities, PVC SunProtect tarpaulin 100% is waterproof, abrasion-resistant, flame retardant, UV resistance, anti-tear, has good tensile properties, especially durable, to protect from the sunlight, wind and rain and other hostile weather, it can last for 5 years with proper use. With soft texture and colorful colors, it can make a variety of beautiful shapes, such as sun umbrellas, various umbrellas, etc., which is very suitable for outdoor application.

100%
waterproof

Wear-resistant
flame retardant
