Oil fence fabric – Factory wholesale

PVC Oil fence also called **Barrier Tubes** which is produced by PVC high-strength polyester through the lamination process, and the middle base is coated with glue, features air tightness, strong strength, high quality and stability, surface self-cleaning, anti-aging and various weather resistance. It is used for port and river cleaning, waterproof water plants and pollutants. With excellent water and oil resistance, handling emergency oil spills in tanker terminals, offshore, etc. **Barrier tubes react quickly to prevent the spread of floating oil and block the spread of silt and debris in river channels.**

-  Airtightness
-  high strength
-  high quality and stability
-  self-cleaning surface
-  anti-aging

Understanding the Importance of Oil Fences for Environmental Protection:

- ▶ Oil Fence is essential to protect water bodies and the ecological environment. It can prevent oil and other harmful liquids from leaking, clean waterways and rivers, and block silt.
- ▶ It can effectively prevent oil pollution or other harmful substances from spreading to rivers, lakes and other water surfaces, reduce water pollution, and protect the ecosystem in water.
- ▶ In the event of a leak, the Oil Fence can be quickly built and deployed to ensure that the pollution source is blocked in the shortest time and to make time for follow-up work.

⇒ Innovative Designs in Oil Fencing Solutions :

The design of Oil Fence is constantly innovated. The following is the new design direction of Oil Fence:

- ▶ **Lighter and faster:**
The lightweight materials and folding design make it easy to transport and store and efficient in emergency response.
- ▶ **Height and length can be adjusted:**
Flexible deployment depending on the contaminated area.
- ▶ **New high strength material:**
With a new type of high strength material, Oil Fence has higher tear strength, corrosion resistance, acid and alkali resistance, and durability.
- ▶ **Environment-friendly, poisonless:**
Oil Fence is made of environmentally friendly non-toxic PVC material, which can be completely recycled after use.
