

Oxford fabric–Factory wholesale

GSTARP

Oxford fabric is a versatile, high–performance textile material known for its light weight, durability, and multipurpose use. It features waterproofing, stain resistance, good breathability, as well as high abrasion and tear resistance, making it suitable for long–term use. The fabric is soft to the touch, available in a variety of colors, easy to clean, and offers excellent wrinkle resistance.

Depending on its purpose and performance, Oxford fabric can be classified into waterproof Oxford fabric, polyester Oxford fabric, and nylon Oxford fabric. The surface can be coated with PVC, TPU, PE, and other materials.

Oxford fabric has a wide range of applications, including luggage, tents, sunshades, workwear, pet products, and home décor. Its outstanding performance and variety of options make it an ideal material for outdoor activities, everyday life, and industrial products.

Waterproof Oxford fabric is suitable for outdoor use, such as tents and rain gear.

Polyester Oxford fabric is known for its durability and is widely used in luggage.

Nylon Oxford fabric is lightweight and strong, making it ideal for outdoor gear and clothing.

GSTARP

Oxford Fabric Common GSM and Application

150gsm – 200gsm belongs to lightweight Oxford fabric mainly used for lightweight clothing and lining of bags. 200–300gsm belongs to medium thickness, mainly used for travel bags and backpacks.

PVC or TPU coating is applied to the Oxford fabric to make it waterproof, 300–400gsm is used for outdoor waterproofing, such as tents, raincoats, umbrellas, etc.

Industrial and Architectural Applications

400–600gsm thickened Oxford fabric has better wear resistance and tear resistance, mainly used for various tarpaulins, cover cloths, car covers, etc., and can also be used to make tool bags.

Home and Decorative Applications
200–350gsm GSM is widely used in daily life, mainly for home use, such as tablecloths, furniture cover cloths, etc.
