

PVC car wash mats and garage protect mats are made of high-strength PVC waterproof material, it's a heavy-duty PVC tarpaulin. PVC car wash mats are used to prevent sewage from flowing around and polluting the ground when washing a car, and also it can be used to protect the garage floor from rain and snow. The car wash mats have inflatable structures with high surrounding edges, effectively preventing the spread of water, dirt, mud, snow and detergents, keeping the surroundings tidy. This material has excellent waterproof and snowmelt resistance, easy to clean and durable. Its wear-resistant, non-slip performance ensures long service life, is the ideal material for home and commercial places, especially suitable for cold or wet environment, very hot in the United States and Canada, Europe.

Main Products

- 1 PVC Garage mat
- 2 car wash mat material
- 3 car wash curtain material
- 4 PVC car wash containment mat material

PVC Car wash mats material Available Worldwide

Professional sales team, Over 15years experience in producingPVC Car wash mat material, Over 10years OEM&ODM finished product experience, Gemeny production lines, Automatic computer colour meching system, Advanced inspection process, Imported pvc resin, Can deliver what exactly client need.

1

Scratch resistant:

The PVC coated fabric is a kind of liquid PVC uniformly coated on top of the base cloth, the upper and lower two surfaces are smooth and strong, and polyester base cloth on the high strength, can prevent sharp objects scratch or puncture, with good scratch resistance.

2

Wear-resistant :

The fabric surface is very smooth, the surface coating is arranged tightly via surface acrylic or PVDF treatment techniques, the hardness is very high, resisting all kinds of wear and tear, so it is very wear-resistant.
