## Thick Clear PVC Tarpaulin-Characteristics

GSTARP

### **Airtightness:**

Our coated cloth is equipment imported from Germany, the new advanced process to make the coating and the basic tightly combined, through the oven and tunnel furnace heating and shaping, has a very good airtightness, windproof effect, with good airtightness, it can be used as a large odd storage device.

### **Heat insulation:**

The PVC coated fabric is formulated so that the coating is flame retardant, an extra layer of security is added to protect against sub-ultraviolet rays, and has good insulation against heat sources.

### **Durability:**

The PVC coated fabric is produced by imported equipment, the product structure is advanced, has a solid surface, has a strong resistance to prevent tear, this is one of the biggest features of our products, the quality is very stable, with long life cycle, there is a very excellent durability.

### **Scratch resistant:**

The PVC coated fabric is a kind of liquid PVC uniformly coated on top of the base cloth, the upper and lower two two surfaces are smooth and strong, and polyester base cloth on the high strength, can prevent sharp objects scratch or puncture, with good scratch resistance.

### **Wear-resistant:**

The fabric surface is very smooth, the surface coating is arranged tightly via surface acrylic or PVDF treatment techniques, the hardness is very high, resisting all kinds of wear and tear, so it is very wear-resistant.
